

# NATIONAL P-3 CENTER

We are grateful for your interest in the 2024 National P-3 Institute, to be held in Vail, CO, October 23-25. This short application will help us identify teams that will bring a rich diversity of perspective, experience, scope, and scale to the Institute.

We want this application to be an easy lift, though. Altogether, we expect applications to be no longer than 3-4 pages.

This year's Institute will focus on three primary P-3 strategies:

1. School district organization and culture;
2. Elementary principal leadership and development; and
3. Instructional alignment and coherence.

We encourage you to reflect on your work in these areas in the questions below.

At what level is your team implementing a P-3 approach? (check all that apply)

- School District
- Multi-School District / Region
- School
- State
- Other (please describe)

What are the primary motivating factors for sending a team to the 2024 National P-3 Institute? (please limit to 1500 characters)

Summarize your current efforts to implement a comprehensive P-3 approach. Please briefly describe any work related to the three strategies named above, key partners involved, and the theory of change and/or strategic plan that currently guides your work. (please limit to 1500 characters)

Briefly describe any resources dedicated to your P-3 work for the next 3-5 years. (please limit to 1000 characters)

Provide a preliminary list of the 6-8 individuals who would comprise your team, including their titles and/or roles.

Given the three focus areas for this year's Institute, we encourage you to include:

- district central office leaders (especially those at cabinet level engaged in curriculum, instruction, and/or principal supervision in early learning and the early grades);
- partners in any principal pipeline work, including faculty in higher education who prepare principals, leaders in state

education agencies or statewide organizations that support principals; and

- leaders from state agencies or intermediary organizations who bridge the work of school districts, state-funded PreK, Head Start, and child care.

Primary contact for this team application.
